

AXIAL-FLO

Black Orchid Axial-flo fan with UK plug

The Black Orchid Axial-flo is a small and robust fan. It is ideal for intake air or air extraction from smaller grow rooms.

Axial-flo is ideal for smaller ventilation systems with short duct runs and low resistance levels. It is a versatile design that can be mounted in tent ventilation sockets for fresh input air.

Axial-flo has a lipped casing for mounting directly onto carbon filters. This is particularly useful for recirculation 'scrubbing' odours from a grow room or tent.

Air flow:
up to 312 m³/h

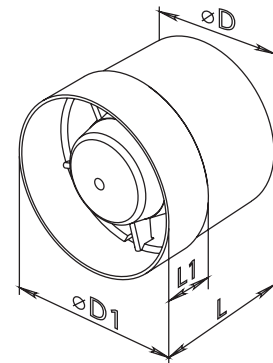

Power:
from 16 W

Noise level:
from 38 dBA

DESIGN

- Supplied with 1.8m power cable and fitted UK or EU plug.
- Protection rating IPX4 and equipped with overheating protection.
- Maintenance free.
- Axial impeller with reliable and low watt German Blauberg motor.
- Five year Black Orchid warranty.

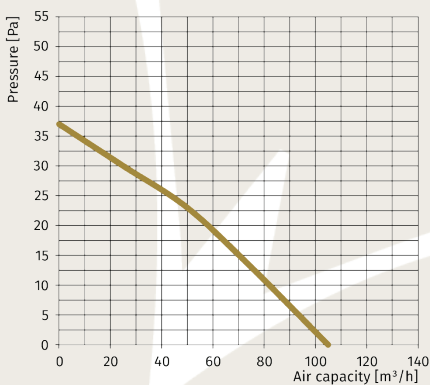

PERFORMANCE

Product	Description	Air Flow [m ³ /h]	Power [W]	Noise Level [dBA]
